IT is put up in full quart bottles, and contains the strength of six times as much pure Honduras Sarsa parilla as any similar preparation in America. Price one dollar per bottle, or six bottles for five dollars.

It has been a well established fact for years past, tha Sarsaparilla, when pure and properly prepared, was the only true panacea for all diseases originating from an impure state of the blood, the use of mercury, intoxicating drinks, evil habits in youth, barrenness, &cc. The Sarsaparilla is purchased without regard to price, and every pound, before being used, is subject to the strictest chemical tests, and its genuineness ascertained before being used.

The truly wonderful and remarkable cares that have come under our immediate observation have more than convinced us that Doctor Bull is a great man, and that his Fluid Extract of Sarsaparilla is the most valuable combination of vegetable extracts that the science of chemistry has yet produced. All success to the Doctor in his new enterprise, say we — Louisville Courier.

We agree with our neighbor of the Courier, that Dr. Bull is a great man, and his Sarsaparilla a greater medicine; and we are fully convinced that the Doctor, with his Sarsaparilla, will create a far more enthusiastic excitement east than Barnum did with Jenny Lind. We would not have our readers to understand usas classing the Doctor an in his Sarsaparilla with Barnum and Jenny tind, because a l who spend their dollar for a bottle of Bull's Sarsaparilla will get its equivalent; and we have WHO HAS TRIED

At that critical period termed the "turn of life," which is often attended with so much denger, Bull's Sarsaparilla is found to exert a most beneficial effect. All ladies approaching this crisis should be apprised of this fact, and avail themselves of this valuable medicine.

Ladies, abandon the use of paints and anixtures and use Bull's Sarsaparilla, the only effectual remedy. "A word to the wise is sufficient," and a hint is enough for the ladies.

We carnestly invite all persons who are suffering with any of the itls that flesh is herr to, to call on Dr. John Bull's agent, and get a copy of Bull's Family Journal, gratis; and for the sake of humanity, we hope that a single individual will not be found unwilling to give Bull's Sarsaparilla a trial, after reading, and recollecting, at the same time, that it is impossible for the Doctor to publish the tenth part of the number of certificates of astounding cures performed by his Sarsaparilla. The amount of testimony voluntarily showered on Dr. Bull's Sarsaparilla, from well known and distinguished individuals, both in public and private life, has been perfectly overwhelming. wheining. THE RAILROAD CASE DECIDED .- The opinion of the Court of Appeals in the case of Slack and others vs. the Maysville and Lexington Railroad Company, was delivered at Frankfort on Tuesday by Judge Marshall. The main question in the case was whether the act of the General Assembly authorizing a subscription of stock in said company, by Mason county, upon the approval of a vote of her citizens, is constitutional or not. The court decided that the act was not contrary to the old constitution, under which it was passed, and that it was not abrogated by anything in the new constitution. Whether similar acts passed under the present

constitution are valid or not, is not decided. Judge Hise dissented, and will prepare an exposition of his views.

But alas! o'er this calm evening of the old General's day, a deal of perplexity was doomed to fall, and he soon found himself in troubled waters, the depth of which he could by no means understand. He floundered about like a caged rat under a pump—and such another melancholy fish out of water never before swallowed the bait, hook and all, of the angling god of love. The poor General. We must give him a name or we can't tell the story, and the best name work has a story of the same meaning as "he is so handsome." I loved him, and took him as my husband. we can't tell the story, and the best name for such a story is Uncle Toby. Poor my husband. "Well, then, I guess I'll marry you, said the widow. "Thank you, ma'am," said!Uncle Toby

"but one thing I'm bound to tell you of, madam—I wear a wig!" The widow started, remained silent a

moment, and then went into a longer, louder and merrier laugh than she had in dulged in before, at the end of which she drew her seat nearer to the General; gravely laid her hand on his head, gentle lifted his wig off and placed it on the ta-

General Uncle Toby had never known fear in hot battle, but he now felt a most decisive inclination to run away. The widow laughed again; as though she never would stop, and the General was about to clap his hat upon his denuded head, and bolt, when the facetious lady placed her hand upon his arm and detained him. She then deliberately raised her other hand to her head, with a sort of military precision, executed a rapid manœuvre with her five fingers, pulled off her whole head of fine glossy hair, and placing it upon the table by the side of the General's remained seated, with ludicrous gravity, in front of her accepted lover, quite

As may be expected, Uncle Toby now laughed with the widow, and they soon grew so merry over the affair that the maid servant peeped through the keyhole at the noise, and saw the old couple dancing a jig and bobbing their bald pates at each other like a pair of Chinese mandarins. So the two very shortly laid "their heads together" upon the pillow of matrimony-scudding under bare polls.

HE IS SO AMIABLE. A beautiful girl, gay, lively and agreeable, was wedded to a man of clumsy figure, coarse features, and a stupid physiongnomy. A kind friend said to her one day—"My dear Julia, how came you to marry that man?"

"The question is a natural one. My husband, I confess, is not graceful in his appearance, nor attractive in his conversation. But he is so amiable! And good-

We often see objects which appear repulsive at first, but if we see them every day, we become accustomed to them, and at length not only view them without aversion, but with feelings of attachment. The impression which goodness makes on the heart is gradual; but it remains forever. Listen. and I will tell you how I came to marry

There was a fine old general once, who, having spent most of his life in the field of Mars, knew very little about the manner, uncouth in his appearance, and rough and honest spirits often met with in his gallant profession, innocent as an infant of almost every thing save high integrity and indomitable bravery. He was nearly fifty years old, and his toils were over, when Master Dan Cupid brought him acquainted with a widow Wadman, in whose eye he began to detect something that made him uneasy. Here was always at the disposal of the misters of the house, and was profuse in his attention to those whose age or ugliness the result of leisure.

During his service he had never seen any thing worthy of notice in a woman's eye. TRUSSES.

MARSH'S LATE IMPROVED SELF ADJUSTING TRUSS—the embodiment of ingenuity. Skill and science are beautifully blended in this useful instrument, admirably adapting itself to the different movements and positions of the body. Its perfect action and certain pressure at all times and under all circumstances, gives to the wearer that confidence in his safety so nacessary to his happiness. The instrument is neat and compact, dispensing wholly with straps and buckles, leaving the wearer a free use of his limbs, he becomes unconscious of its presence, and pleased with its relief, continues to wear it a few months, when a cure is permanently effected.

Also, MARSH & CO.'S ABDOMINAL SUPPORTERS, of various patterns; one of which claims especial attention, as it is worm with much comparative comfort to that of others, being so constructed as to give a uniform support to the Back and Abdemen, doing away with the steel spring, so annoying to the wearer. The above auticle will be found of great benefit to persons efficient with pain in the back and sides, inability to be upon their feet for any length of time, which arress from a displacement of parts that are readily restored by timely application of a properly constructed instrument.
